**REF: CONDEMNATION LETTER AGAINST THE SUSPENSION AND CHARGES OF THE
FIRST VICE PRESIDENT DR. RIEK MACHAR TENY DHURGON.**

The Community hereby releases their Condemnation to the International Communities and other peace Guarantors for their support and unwavering effort toward South Sudan peace process that bring permanent and long-lasting agreement. The fear that force the South Sudan community to demonstrates, is the actions that was taken by the **president Of the Republic South Sudan for the Suspension of the First Vice President H.E Dr Riek Machar Teny**, he sacrifices himself to bring the civil war to an end, he made so many condone to return the country to the Vision of Democracy, fair Justices, prosperity and peaceful stabilization.

We the undersigned, hereby submit this Formal petition to challenge the unlawful Suspension of First Vice President of the Republic of South Sudan, H.E Dr. Riek Machar Teny Dhurgon, and the arbitrary detention of Senior SPLM/A-IO leaders under Unsubstantiated Charges. The actions Constitute a clear abrogation of the Revitalized Agreement on the Resolution of the Conflict in South Sudan (**R-ARCSS**) of **2018**, an agreement that remain as hope of south Sudanese a (peace), stability and reconciliation in the Nation.
Annulment of R-ARCSS.

In March, the peace agreement was placed into annulment when the First Vice President of South Sudan. **H.E Dr. Riek Machar Teny, Hon. Puot Kang Chuol Minister of Petroleum, Hon. Gatwech Lam Puoch member of Reconstituted National legislative assembly, Gen. Gabriel Duop Lam Deputy Chief of General Staffs** and others was subjected to politically motivated

action contrary the **R-ARCSS**.

These actions undermine the legitimacy of the peace process and erode confidence among stakeholders.

The illegal charges against leader's party which is the main signatory to the agreement shows clearly a lack of legal and evidential foundation, the Nasir clashes between SSPDF and White Armies, it show itself and the community of Nasir County speaks loudly to the South Sudan government and Human Rights Division, for the crime committed by the National Army. The clashes erupted after the Government and Human Rights Division take deaf hear to the Community of Nasir, the youths and elders arm themselves to protect and defense any humiliation against Nasir Community, today it will not be accounted to SPLM/A_IO Leaders. The South Sudan National laws nor International legal frameworks condone a political motivated Suspension or detentions. It's the violation of Justice and Human Rights arbitrary actions of this nature amount to violations of Human Rights, and International Standards. The Targeting of Political leaders is the declaration of the End point or Termination of Revitalization of agreement, the peace that give the South Sudanese a break to stabilize, reconcile and stay happy, the Government of South Sudan terminate the agreement. We urge the peace guarantors to intervene for immediate cessation of hostilities and urgent dialogue between the country leaders to de-escalate tension and restore calm.

Nuer Community worldwide and others sixty-four tribes are calling four an immediate cessation of hostilities and restore calm. The parties must recommit to the Revitalized peace agreement by ceasing all hostilities and strictly adhering to the ceasefire. The accusations which are being wrongfully accused and unjustly targeted for prosecution.

It is clear that these allegations are baseless and political motivated. It is imperative that the international community stands up against this blatant abuse of power and ensures that justice prevails. The people of South Sudan deserve a leader who will work towards peace and progress, not one who is unfairly persecuted for their beliefs.

We respectfully demand the following, the immediate reinstatement of Dr. Riek Machar Teny to his rightful tittle as provided by the **R-ARCSS**. The unconditional release of detained SPLM/A-IO leaders with all charges dropped unless proven valid under due process of law.

The full adherence to the **R-ARCSS** by all parties, with strict monitoring by **IGAD, AU, TROIKA** and **UN/SC**. The establishment of an independent international inquiry to assess violations of the peace agreement and hold accountable those who undermining peace and justice.

The Hybrid Courts that commend by **R-ARCSS** to be established to Prosecute whoever committed crimes against Humanity or domestic system is unwilling or unable to do so. Failed by the president of South Sudan H.E Salva Kiir Mayardit.

If there is a competent court in the country, it can be started with those south Sudanese who were killed and murdered in **2013, 2016, and 2025** in Nasir County with the directive from Top Government officials.

To UN Security Council we the Nuer community strongly strike peacefully and writing to your attention the graved Human Rights violations occurring to South Sudan civilians specially Nuer Tribe. The civilians were cough up in the nightmare of Bombardment in Nasir, Ulang, Lungochuk,

Maiwut, Mayom, Akobo, Panyinjar and Pangak County those counties owned by Nuer Tribe. On 12th-14th Sep/ 2025 the same Antonov and Gunship owned by Ugandan People Defense Forces (UPDF) with Ethyl Acetate Chemical that targeted the vulnerable population mostly, Children and women, as a concerned Community we feel compelled to high-light the urgent need, **(Intervention of Human Rights Division and International Communities)** Because they're doing at the watch of the United Nations Mission in South Sudan and others Stakeholders.

The peoples of South Sudan are mostly concern for the present of the UPDF who are the most perpetrators to fuel the war in the country where they are playing their self-egoism in which they took the commercial system of the Republic of South Sudan.

The United Nation Security Councils (UN/SC) impose arms Embargo on South Sudan on **July/2018** by UN New York Resolution art: **2428 (2018)**. We wonder where the Government still importing the weapons and ammunitions through Uganda Government. Whereby the UN were witnessed the entering of the (UPDF) with their military equipment, Air force in to the South Sudan Territory. In the (R-ARCSS) there is no an indication to grant Uganda Army Participations in the military actions of the country. The peace grantors have to question the (UPDF) who actively participate directly to the South Sudan Civil War.

Misquote of article **186** of penal code **Act, 2008** refer to a crime against humanity and systematic attacks on civilians and ethnic -based persecution while it is fouling water of public or reservoir and Article **334** of penal code **Act, 2008** which was refer to Destruction of public property and military assets while it is House break by night.

The above mentioned misquote made by the Ministry of Justice and constitutional affairs enshrine that they are bias.

The charges of murder and treason made against DR Machar and other senior members of SPLM/SPLA IO are unconstitutional and baseless.

According to the law Article **19 (2)** an accused person is presumed innocent until proved by the law. This petition invokes the Transitional constitution of the Republic of South Sudan **2011** amended **2013** as the supreme Law binding on all organs of Government (**Article3**)

The ministry of justice has violated the constitution by prejudging the accused and usurping judicial functions. That any allegations must be subjected to independent judicial review without executive interference. Nasir charges against DR. Machar is a clear gross violation of the Revitalized agreement. The International oversight is informed to disregard any kangaroo court proceeding.

We call to the international community if there is an accountability in South Sudan crisis since the beginning of civil war in 2013 upto Date, whoever committed crime against humanity will be brought to Book instead of **DR. Riek Machar**.

The Nasir crisis that terrorizes the civilians and displaces more than 30,000 peoples plus its government project to annulment the agreement, the government of the Republic of South Sudan have objective and plans against Nasir crisis which brought loss of lives and rampant displacement of civilians. It will not be account to one party, if so, it's a clear abuse of law to suppress Political opposition. They violate the Transitional Constitution, International Obligations and the Peace Agreement framework.

Justice requires that the charges be quashed as unconstitutional, politically motivated and fabricated. Any allegations must be subjected to independent judicial review without executive interference.

Conclusion and Recommendations

- Unconditional release and reinstatement of first vice President and other seniors political and military Generals.
- Parties to the agreement must go back to dialogue.
- Immediate withdrawal of foreign troops specially Uganda troops, RSF and Russian troops.
- Immediate cessation of aerial bombardment in the areas of Upper Nile and Greater Equatoria Regions.
- To stop ongoing violation of permanent ceasefire carrying out by the government.
- To stop unlawful targeting of civilians based on their ethnicity.

NB: We find it deeply concerning that the suspension of first vice President and the chairperson of SPLMA-IO is the termination of the agreement.

Therefore, the above-mentioned points of view is all about the community burning issues and affecting escalating the general situation.

The communities are urging and draw the attention of international communities AU, IGAD, UN/SC, EU and TROIKA to fully address the current situation in Republic of South Sudan.

The citizen has lost the confidence and the trust in the unity government that does not prioritize peace and stability of the country.

May God bless South Sudan.
